

Update on DOH Runway Works for the S26 Scheduling Season

To all operators at DOH/Hamad International Airport,

Please be advised that, due to the current geopolitical situation, the planned runway works for the S26 scheduling season have been postponed.

Accordingly, runway capacity restrictions will be lifted, and no capacity reduction will be applied.

The revised runway coordination parameters for the complete S26 scheduling season are as follows:

- * R60 Arrival Movements: 60
- * R60 Departure Movements: 80
- * R60 Total Movements: 86
- * R10 Total Movements: 14

In addition, due to current airspace restrictions, approval from the QCAA Air Transport Department is mandatory before any slot request is processed.

Operators are also advised to continually monitor NOTAM publications for any further updates or changes related to airspace or operational conditions.
